PROFESSOR AKINDEJU

2. INT. SCIENCE LAB - DAY

DEJI (V.O.)
It's a world of questions we live
in. Some we are prepared for,
others not so much... but prepared
or not, these questions will come.

Deji, Sade and Tobi walk in. Deji is very excited as he goes
to the front of the class and sits, bringing out his books
and setting them on the table eagerly

Sade says hello to a couple of people and takes a seat
somewhere in the middle

Tobi takes a seat somewhere at the back

A few seconds later, an elderly looking man in his fifties,
PROFESSOR AKINDEJU, walks in and goes to stand in front of
the class, dropping his materials on the podium as he
addresses the class

PROFESSOR
I am Professor Akindeju and I
believe this is your first
Chemistry class with me

He picks up a marker from the table and writes out the word
"Esterification" on the board

PROFESSOR (CONT'D)
Who can tell me the...

Before he completes the sentence, Deji shoots up his hand

PROFESSOR (CONT'D)
Yes young man, you are?

DEJI
Deji Adefemi, 100 level
Biochemistry

2.

PROFESSOR
(half-teasing)
Okay, what's the answer to my yet unfinished question?

DEJI
It's the conversion of carboxylic acids to esters using acid and alcohols

PROFESSOR
Hmmm... Thank you!

He waves Deji to sit down then turns to write a scientific equation purposely leaving out the catalyst

Deji beams, proud of himself, oblivious of a very pretty and nicely dressed young lady, BRENDA, taking an interest in him. She is the hottest babe in class

The Professor turns back to face the class

PROFESSOR (CONT'D)
Who knows what is missing from this equation?

Deji shoots up his hand again. This time, BELLA, a pretty but glasses wearing nerdish looking girl also raises her hand. Professor points to her and she gets up

BELLA
Bella Oke-Igwe... 100 level Medicine. The acid catalyst which is concentrated Sulphuric acid is missing

Deji turns to her obviously impressed. Bella unexpectedly turns to him and smiles. Deji quickly looks away flustered

3. INT. SCIENCE LAB - MOMENTS LATER

The class is over and the Professor is addressing then

PROFESSOR
I will be expecting your assignments sent in no later than Wednesday. Is that clear?

The students mumble, most of them in disapproval

PROFESSOR (CONT'D)
Great! I see that we are all on the same page. See you next class
